

Kliksafe migrates email to the cloud and delivers an improved customer experience

Kliksafe is a European internet service provider (ISP) that specialises providing a safe internet experience for families.

CHALLENGES

- Outdated webmail experience
- Needed a multilingual service with Kliksafe branding
- Limited in-house email expertise
- Required email platform stability to maintain customer trust.
- Wanted email delivered as a service

SOLUTIONS

- Modern, device responsive, multilingual and user friendly webmail service.
- Easy white labelling.
- Email delivered as a service
- Stable service with premium antispam included
- GDPR compliance.

RESULTS

- No customer downtime during migration
- Modern multi device user experience
- Enhanced Kliksafe brand image
- Delivered as a service
- Reduced reliance on internal resources
- Easy access to email experts as needed.
- Fully compliant with GDPR

“

mail migration is a big project that must not interrupt mail services. **“The store is open during the renovation”**

Our customers expect mail services for free. Atmail provides the platform for this and gives us options to upgrade our customers to paid services.
